Monsanto

Director Wiltse requested authorization to waive the 65% plan check for the Monsanto building project since they are planning on hiring a specialty inspector for this purpose. Monsanto will submit a regular written report to the county on facility construction progress. The county would still collect the basic building permit fee of \$28,845.50 for the project. Board **consensus authorized waiving the 65% plan check fee for the Monsanto project.**

Building and Planning

Director Wiltse briefly discussed the proposed purchase of permit tracking software noting that an internet based one has been reviewed; but, another program has been located that has the option for being available to several departments all of which issue permits (public works, health, solid waste, etc.). Further research will be done on the options and a formal presentation made to the Board at a later date.
