Sheriff's Department

Sheriff Wagner met with the Board regarding the salary placement of his department's administrative assistant. Additionally present were Prosecutor Flyckt; Human Resource Manager Perez; and, Undersheriff Coronado.

Commissioner Hartwig requested Human Resource Manager Perez review the findings of her research in the matter. Perez shared data with respect to what other administrative assistants are being paid in the county, as well as other county sheriff administrative assistants. Perez noted a reclassification request is approved when a position has changed so substantially in its duties and responsibilities that it warrants an increase in compensation. Additionally, Perez noted, in reviewing the administrative assistant job description in the sheriff's department, there are some changes; however, they are not substantial enough to show the position has changed, noting requirements for a reclassification have not been met; and, at this time is not recommending a reclassification.

Sheriff Wagner noted he has reviewed all Adams County administrative assistant job descriptions and that all of the position requirements of every one of the administrative assistants in the county will be listed on the qualifications for the sheriff's office administrative assistant job description.

Human Resource Manager Perez noted that a salary reclassification is not based on what other positions are being paid, it is based on substantial

changes in duties that warrant an increase in pay. Based on the information provided by the sheriff, as to what he outlined as duties of his administrative assistant position, it is not substantially different from what is currently adopted as duties for that position and does not warrant a reclassification.

The Board by **consensus** denied the reclassification request.
