**Emergency Management**

Emergency Management Director Weise reported that original plans to finance tower infrastructure improvements utilizing grant funds was not going to take place at this time due to Day Wireless issues, and, therefore authorization was being requested to use those funds now for the purchase of portables (16) and pagers (23) for the Fire Districts. **Board consensus authorized the purchase of the portables and pagers.**

Weise provided updated future funding information received during the recent Region 9 meetings. Emergency Management funding sources are expected to reflect increases as well as decreases and it is anticipated that the impact will be minimal. The tower infrastructure improvements will continue to be a top priority as funding sources allow.
