Central Services

Central Services Director Boness met with the Board to discuss a DELL system proposal to reduce the number of physical machines in the Central Services equipment room. By virtualizing the servers the number could be reduced from ten to three. Boness would like to begin the process by replacing two servers, currently used by the Treasurer's Office, using REET funds. Additional servers would be replaced in the future using the Central Services budget.

Boness will meet with Treasurer Danekas and verify that REET funds may be utilized for this purpose prior to moving forward.
